

KIM HYEONGHAN

hyeonghan.kim@duke.edu

 0000-0002-2550-5545

Unified Astronomy Thesaurus (UAT) keywords:

Large-scale structure, Gravitational lensing, Dark matter distribution

EDUCATION

PhD of Science, Astronomy <i>Major: Astronomy</i>	Aug 2025
Yonsei University; Advisor: Prof. M. James Jee	Seoul, KR
Bachelor of Science, Astronomy <i>Major: Astronomy</i>	Feb 2018
Yonsei University	Seoul, KR

EMPLOYMENT

Post-doctoral researcher	Sep 2025 –
Duke University; PI: Prof. M. Troxel	NC, USA
Korea Astronomy and Space science Institute (KASI) Student Researcher	Jan 2019 – Aug 2020
Supervisor: Dr. B. W. Sohn and Dr. M. Martínez-Paredes	Daejeon, KR
• Martínez-Paredes, M., González-Martín, O., HyeongHan, K., et al. 2021, ApJ, 922, 157	
Korean VLBI Network (KVN) System Assistant	Jul – Aug 2016
Yonsei University	Seoul, KR
• KVN maintenance	

UNDER-REVIEW & REFEREED PUBLICATIONS

First and/or corresponding[†] author

- [6] HyeongHan, K., Finner, K., Jee, M. J., et al. *Dark and Luminous Matter in the Coma Cluster: Probing Galaxy Cluster Assembly Through Filaments with Weak Lensing and Multiwavelength Observations*. submitted to A&A, arXiv:2606.12523
- [5] Kim, S., HyeongHan, K.[†], Lee, W., et al. *Weak-Lensing Analysis of the Galaxy Cluster Abell 85: Constraints on the Merger Scenarios of Its Southern Subcluster*. ApJ, 1003, 16 (May 2026)
- [4] HyeongHan, K., Jee, M. J., W. Lee et al. *Direct Evidence of a Major Merger in the Perseus Cluster*. Nature Astronomy, 9, 925 (Jun 2025)
- [3] HyeongHan, K., Jee, M. J., Cha, S. et al. *Weak-Lensing Detection of Intracluster Filaments in the Coma Cluster*. Nature Astronomy, 8, 377 (Mar 2024)
- [2] HyeongHan, K., Cho, H., Jee, M. J. et al. *Weak-Lensing Analysis of the Complex Cluster Merger Abell 746 with Subaru/Hyper Suprime-Cam*. ApJ, 962, 100 (Feb 2024)
- [1] HyeongHan, K., Jee, M. J., Rudnick, L. et al. *Discovery of a Radio Relic in the Massive Merging Cluster SPT-CL J2023-5535 from the ASKAP-EMU Pilot Survey*. ApJ, 900, 127 (Sep 2020)

Second/third author

- [5] Pal, A., Kale, R., HyeongHan, K., et al. *A Multiscale Spectro-polarimetric View of the Radio Relics in the Merging Galaxy Cluster MACS J1752+4440 with uGMRT and EVLA*. submitted to ApJ
- [4] Jiménez-Teja, Y., Román, J., HyeongHan, K., et al. *Deep view of the intracluster light in the Coma cluster of galaxies*. A&A, 694, 216 (Feb 2025)
- [3] Cha, S., HyeongHan, K., Scofield, Z. P. et al. *Precision MARS Mass Reconstruction of Abell 2744: Synergizing the Largest Strong Lensing and Densest Weak Lensing Datasets from JWST*. ApJ, 961, 186 (Feb 2024)

- [2] Martínez-Paredes, M., González-Martín, O., **HyeongHan, K.** et al. *Modeling the Unresolved NIR-MIR SEDs of Local ($z < 0.1$) QSOs*. ApJ, 922, 157 (Dec 2021); Contribution: IR photometry and modeling
- [1] Finner, K., **HyeongHan, K.**, Jee, M. J. et al. *Exemplary Merging Clusters: Weak-lensing and X-Ray Analysis of the Double Radio Relic, Merging Galaxy Clusters MACS J1752.0+4440 and ZWCL 1856.8+6616*. ApJ, 918, 72 (Sep 2021)

Contributing author

- [13] Finner, K. et al. (incl. **HyeongHan, K.**) *Near-IR Weak-lensing (NIRWL) Measurements in the CANDELS Fields. II. Mass Mapping and Overdensity Characterization*. submitted to ApJ arXiv:2605.15264
- [12] Cho, B. Y. et al. (incl. **HyeongHan, K.**) *Joint JWST–DECam Lensing Reveals That the Bullet Cluster Is a Minor Merger*. ApJ, 1005, 28 (Jul 2026)
- [11] Wang, Q. et al. (incl. **HyeongHan, K.**) *Reproducing Abell 2744 with the HyperMillennium Simulation*. MNRAS, 548, 540 (May 2026)
- [10] Jain, S. et al. (incl. **HyeongHan, K.**) *SDSS-C4 3028: the Nearest Blue Galaxy Cluster Devoid of an Intracluster Medium*. OJAp, DOI: 10.33232/001c.144911 (Sep 2025)
- [9] Cha, S. et al. (incl. **HyeongHan, K.**) *A High-Caliber View of the Bullet Cluster Through JWST Strong and Weak Lensing Analyses*. ApJL, 987, L15 (June 2025)
- [8] Finner, K. et al. (incl. **HyeongHan, K.**) *Weak-Lensing Characterization of the Dark Matter in 29 Merging Clusters that Exhibit Radio Relics*. ApJS, 277, 28 (Mar 2025)
- [7] Rajpurohit, K. et al. (incl. **HyeongHan, K.**) *Abell 746: A highly disturbed cluster undergoing multiple mergers*. ApJ, 966, 38 (May 2024)
- [6] Lee, W. et al. (incl. **HyeongHan, K.**) *Discovery of a large-scale bent radio jet in the merging cluster Abell 514*. ApJL, 957, 4 (Nov 2023)
- [5] Finner, K. et al. (incl. **HyeongHan, K.**) *Near-IR Weak-Lensing (NIRWL) Measurements in the CANDELS Fields I: Point-Spread Function Modeling and Systematics*. ApJ, 958, 33 (Nov 2023)
- [4] Lee, W. et al. (incl. **HyeongHan, K.**) *Discovery of a Double Radio Relic in ZwCl1447.2+2619: A Rare Testbed for Shock-acceleration Models with a Peculiar Surface-brightness Ratio*. ApJ, 924, 18 (Jan 2022)
- [3] Kim, J. et al. (incl. **HyeongHan, K.**) *Head-to-Toe Measurement of El Gordo: Improved Analysis of the Galaxy Cluster ACT-CL J0102-4915 with New Wide-field Hubble Space Telescope Imaging Data*. ApJ, 923, 101 (Dec 2021)
- [2] Norris, R. et al. (incl. **HyeongHan, K.**) *The Evolutionary Map of the Universe pilot survey*. PASA, 38, 46 (Sep 2021)
- [1] Di Mascolo, L. et al. (incl. **HyeongHan, K.**) *Multiwavelength view of SPT-CL J2106-5844. The radio galaxies and the thermal and relativistic plasmas in a massive galaxy cluster merger at $z \simeq 1.13$* . A&A, 650, 153 (Jun 2021)

SELECTED TALKS AND POSTERS

Contributed Talks

ASKAP-EMU Virtual Meeting	Jul 2020
EMU-CCW Virtual Meeting	Sep 2020
102nd Korean Astronomical Society Meeting	Sep 2020
103rd Korean Astronomical Society Meeting	Apr 2021
240th American Astronomical Society Meeting, Pasadena, US	Jun 2022
International Astronomical Union General Assembly 2022, Busan, South Korea	Aug 2022
243rd American Astronomical Society Meeting, New Orleans, US	Jan 2023
108th Korean Astronomical Society Meeting	Oct 2023

1st Merging Cluster Workshop at Yonsei University	Dec 2023
109th Korean Astronomical Society Meeting	Apr 2024
2024 European Astronomical Society Meeting, Padova, Italy	Jul 2024
111th Korean Astronomical Society Meeting	Apr 2025
Filaments in the Multi-scale Universe at Kavli-IPMU	Oct 2026

Invited Talks

2nd Merging Cluster Workshop at Yonsei University	Nov 2025
Galaxy Cluster Meeting at CfA	Oct 2026

Posters

100th Korean Astronomical Society Meeting	Oct 2019
9th Korean Institute for Advanced Study (KIAS) Cosmology Workshop	Nov 2020
Galaxy Cluster Formation Meeting	Jun 2021
European Astronomical Society Meeting	2024
Galaxy Clusters & Radio Relics II meeting at CfA	Sep 2024
11th KIAS Cosmology Workshop	Oct 2024

HONORS AND AWARDS

Brain Korea 21 Plus Scholarship (awarded 17.5M KRW)	2018–2021
Brain Korea 21 Four Project Scholarship (awarded 33.6M KRW)	2021–2023
Yonsei Merit Academic Paper Award (awarded 1M KRW)	2020
Yonsei Merit Academic Student Award	2021
BLEU Fellowship (awarded 4M KRW)	2023
Yonsei Merit Academic Paper Award	2024

TEACHING EXPERIENCE

Mentor at Duke University, Manvik Kongwad, NCSSM → UNC	Sep 2025 - Jan 2026 NC, USA
MSc project supervisor, Soojin Kim, Seoul National University → UChicago Weak-Lensing Analysis of the Galaxy Cluster Abell 85: Constraints on the Merger Scenarios of Its Southern Subcluster (ApJ, 1003, 16)	Nov 2024 - May 2026 Seoul, KR
Project mentor, Hye Gyeong Khim, Yonsei University	Jan 2023 - Seoul, KR
Project mentor, Boseong Y. Cho, Yonsei University Joint JWST–DECam Lensing Reveals That the Bullet Cluster Is a Minor Merger (ApJ, 1005, 28)	Jan 2022 - Dec 2025 Seoul, KR
Understanding of space TA; Yonsei University	2018, 2020 Seoul, KR

ACCEPTED OBSERVATIONAL PROPOSALS

7 PI proposals

XMM-Newton AO20 (125 ks), AO21 (125 ks), AO23 (160 ks), AO25 (158 ks), ATCA 2020OCT (23.5 hrs), Subaru/HSC 2024B (5 hrs), 2025B (3 hrs)

>17 Co-I proposals

JWST (Cycle3), Roman (Cycle1), *Chandra* (Cycle22, 24), *HST* (Cycle34), XMM-Newton (AO23, 24, 25), ALMA (Cycle8), Gemini-N/GMOS (2021A), uGMRT (Cycle36,37,38,41), Subaru/HSC (2024A, 2026B), Subaru/PFS (2026B), VLA (2025A), MMT/Binospec (2022A), MMT/MegaCam (2022A), MeerKAT (2023, 2024), NuSTAR (Cycle12)

ACADEMIC SERVICE

Referee service

ApJ Letters

Department of Astronomy Social Exchange Meeting LOC (chair)

May 2019

The 3rd Astro Poster Jamboree LOC

Aug 2019

9th Korea-Japan Workshop on Dark Energy LOC

Nov 2022

<https://sites.google.com/view/9kjwde/home?authuser=0>

Yonsei Merging Cluster Workshop 2023 LOC (chair) / SOC

Dec 2023

<https://yhep-indico.yonsei.ac.kr/event/549/>

Duke Cosmology Group Journal Club organizer (chair)

Jan 2026–

Collaborations

The Evolutionary Map of the Universe (EMU) conducted with Australian SKA Pathfinder (ASKAP)

The Roman Cosmology with High Latitude Imaging Survey Project Infrastructure Team (Roman HLIS PIT) for the Nancy Grace Roman Space Telescope

The Rubin Observatory Legacy Survey of Space and Time Dark Energy Science Collaboration (LSST DESC)
